PROFESSIONAL SUMMARY

Motivated Java Full Stack Developer with proven ability to design and develop end-to-end web applications using Java, Spring Boot, RESTful APIs, and MySQL for backend, and HTML5, CSS3, Bootstrap 5, and JavaScript (ES6+) for responsive front-end development. Hands-on experience with CRUD operations, JSON-based API integration, database design, and MVC-based application architecture. Strong foundation in Object-Oriented Programming (OOP), SDLC, and Agile software development practices. Passionate about clean code, problem-solving, and continuous learning. Seeking a Software Developer role to design and deliver scalable, production-ready full-stack applications.

TECHNICAL SKILLS

Programming Languages: Java

Frontend Technologies: HTML5, CSS3, Bootstrap 5, JavaScript (ES6+), Responsive Web Design, DOM Manipulation

Backend Technologies: Spring Boot, REST API Development, RESTful Web Services, JSON, HTTP Methods (GET, POST, PUT, DELETE), MVC Architecture

Database: MySQL, SQL Queries, Database Design, CRUD Operations, Normalization

Developer Tools: Git, GitHub, VS Code, Eclipse IDE, Postman

AI-Assisted Dev Tools: ChatGPT, Claude AI, Perplexity, Cursor AI

Core Concepts: OOP, SDLC, Agile Methodology, API Integration, Version Control, Software Engineering, Problem Solving

WORK EXPERIENCE

Java Developer Intern — *JClick Solution*

Oct 2025 – Nov 2025

- Developed and debugged Java applications applying core OOP concepts — Collections, Exception Handling, and Control Flow — across 3+ assigned modules.
- Implemented Java-based features for real-world application development tasks, delivering clean, functional code under mentor supervision.
- Collaborated with a team of 5+ developers to gather requirements, write functional code, and participate in peer code reviews.

Web Development Intern — *CAZ Brain Pvt Ltd*

Jun 2025 – Jul 2025

- Designed and developed 5+ responsive web pages using HTML5, CSS3, Bootstrap 5, and JavaScript based on UI/UX design specifications.
- Built interactive front-end components with JavaScript, improving UI interactivity and enhancing user engagement.
- Ensured cross-device and cross-browser compatibility through responsive design principles, reducing layout issues across 3+ device types.

PROJECTS

Job Portal System | *Java, Spring Boot, REST API, MySQL, HTML5, CSS3, Bootstrap, JavaScript*

- Developed a full-stack job portal with separate modules for job seekers (registration, job search, apply) and employers (job posting, applicant management).
- Designed and exposed 10+ RESTful APIs using Spring Boot with HTTP methods (GET, POST, PUT, DELETE) following MVC architecture.
- Built a normalized MySQL database schema with 5+ tables to manage user accounts, job listings, and application records efficiently.
- Integrated a responsive Bootstrap 5 front-end with REST APIs using JavaScript fetch and JSON parsing for dynamic, data-driven UI rendering.

E-Commerce Website | *HTML5, CSS3, Bootstrap, JavaScript*

- Developed a fully responsive e-commerce platform with product catalog, dynamic cart management, and interactive UI components.

- Implemented product filtering and add-to-cart functionality using vanilla JavaScript (ES6+) without any external libraries.

EB Bill Calculator | *HTML5, CSS3, Bootstrap, JavaScript*

- Built a real-time electricity bill calculator applying slab-rate billing logic with instant DOM-based UI updates using JavaScript.
- Designed a clean, mobile-first responsive interface using Bootstrap 5 ensuring usability across desktop and mobile devices.

To-Do List Application | *HTML5, CSS3, Bootstrap, JavaScript*

- Created a task manager with full CRUD operations (add, edit, delete, mark complete) using JavaScript DOM manipulation.
- Implemented in-session state management for persistent task tracking without any backend or database dependency.

Restaurant Website | *HTML5, CSS3, Bootstrap, JavaScript*

- Developed a multi-section restaurant website featuring an interactive menu, cart functionality, and responsive navigation.
- Achieved smooth UX across all screen sizes with mobile-first responsive design using Bootstrap 5.

Personal Portfolio Website | *HTML5, CSS3, Bootstrap, JavaScript*

- Designed and deployed a professional portfolio showcasing 6+ technical projects, skills, certifications, and professional profile.

EDUCATION & TRAINING

B.E., Computer Science and Engineering — *Stella Mary's College of Engineering* 2022 – 2026
CGPA: 7.22

Java Full Stack Development Training — *JClick Solution* Jul 2025 – May 2026

- Comprehensive training in Java, Spring Boot, REST API, MySQL, HTML5, CSS3, JavaScript, Git, and Agile practices.
- Built 3+ real-world full-stack projects applying skills across front-end, back-end, and database layers.

CERTIFICATIONS

- Python, Machine Learning & Deep Learning — Jan 2026
- Building and Deploying Web Applications — Jun 2024
- Power BI (VAC 30) — Apr 2024
- Web Development — Dec 2022

KEY STRENGTHS

- Self-motivated and quick learner; consistently adapts to new technologies, frameworks, and software engineering tools.
- Strong problem-solving skills with the ability to break down complex requirements into clean, functional code.
- Effective communicator and collaborative team player, demonstrated through group projects and internship experiences.
- Languages: English and Tamil — Read, Write, Speak (Professional Proficiency).
